

Coffee Thermometers

Model: Coffee Temp (long) & Coffee Short

Coffee Temp (Long)
000138

Coffee Short
000145

Coffee thermometer

Coffee thermometers for frothing milk to the correct temperature. Both come with a jug safety clip and the coffee short also has a probe cover. The jug safety clip, which may be positioned anywhere along the probe to hold the probe securely, may also be used to position the probe down the inside side of the jug or position the end of the probe into the centre of the jug. Dials are colour coded on both units making the perfect frothy milk temperature easy for all coffee makers including trainees.

SPECIFICATIONS

Both Temp Range	0 up to 100C
Short Probe Length	135 mm Stainless Steel
Long Probe Length	195mm Stainless Steel
