### VITRIFIED PORCELAIN

Made of clay that's malleable and great for forming detailed shapes. Created in a two firing process where it becomes vitrified during the second firing, making porcelain an extremely durable dinnerware option that is dishwasher, microwave, and oven safe.

### REACTIVE GLAZE

Our reactive glaze brings authenticity to each piece. Individually crafted to make every look a statement on its own, creating a unique look every time. The finish of each piece is guaranteed to withstand everyday use in a commercial environment.

### SCRATCH RESISTANT

Guaranteed to look new time and again, our scratch resistance glaze withstands abrasion caused by cutlery, stacking, and industrial dishwasher use. Its long lasting glaze allows you to showcase all food styles for many years of service.
